

Dear Natural Foods Buyer,

I recently discovered a delicious new line of all-natural chocolate snacks called Cacao Nibbles (www.cacaonibbles.com). These snacks are a well-balanced blend of intense dark chocolate, flavorful cacao nibs, quinoa and unsweetened fruits. They are wheat and gluten-free, rich in antioxidants and contain no sulfites or artificial ingredients or flavors.

Please consider offering Cacao Nibbles products to your customers. **I pledge to buy this product when it is placed in your store.**

Available flavors include: date coconut; apricot cranberry; blueberry lavender plum; and mango apple. To facilitate the ordering process, here are the UPC codes for the four SKUs in the Cacao Nibbles product line:
